SUMMIT THEME:

AI IN BUSINESS

- The theme for Indus CIO Summit 2024 is '**AI in Business**'. The rapid advancement in AI technologies has changed every aspect of life today and sometime the future seems scary. It feels that we are already in the future that was predicted in Hollywood blockbusters such as Back to the Future and Terminator. But with there is more of course! Not only that artificial intelligence is the prime technology of interest at the moment but at the same time we see all technologies converging to bring the best for us.

- Indus CIO Summit 2024 will focus on how artificial intelligence will shape the way business operate. How AI in the near future would transform manufacturing, human resource, marketing, sales and customer services. And, most importantly, what we need to do to prepare for it!

About Indus CIO Summit
